

Rows Classroom Layout

Single desks in straight rows facing the board

Teacher: _____ Room: _____ Class: _____ Date: _____

Works well for

Independent work, tests and whole-class lessons. Everyone faces the board, and you can see every student from the front.

Watch for

Students in back rows can feel far from the lesson, and talking with a neighbor takes extra setup. Plan a quick turn-and-talk routine.

My notes

-  Student desk
-  Teacher desk or table
